

print\_ip\_from\_tuple

```
graph LR; A[print_ip_from_tuple] --> B[print_ip_from_tuple_internal]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'print\_ip\_from\_tuple'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'print\_ip\_from\_tuple\_internal'.
